

Internationally Acclaimed Local Artist Steve Carpenter Returns to Europe for Solo Show

After a decade, **Steve Carpenter** returns to Europe for a solo show at the prestigious **Bell Tree Tower Gallery in Zurich, Switzerland.**

Steve Carpenter, founder of the Steve Carpenter Gallery and Art Center, home of the New York Figure Study Guild, MECA and an exceptional Program for inner city youth, has been invited to travel to Zurich Switzerland in June to exhibit over 55 ***“New Works”***.

Each piece, ranging from charcoal sketches to 12’x5’ .5” oil paintings represent Steve’s personal philosophy that suggests ***“Nothing is, Everything is Becoming”***.

“In perceiving the core of the human form, the viewer is invited to discover and identify with the inseparable elements of energy and substance that becomes whole”.
Steve Carpenter

In addition to his ***“New Works”***, also on exhibit will be selected pieces from a private collection owned by European Industrialist and patron, **Gerard Balhuber**, work dating back to the beginning of Carpenter’s professional career.

Included on the VIP list for the show is the Royal family of Monaco, longstanding patrons and friends of Mr. Carpenter.

The ***“New Works”*** Show opens on Friday, June 12 at the **Belltree Tower Gallery**, Turmstrasse 3 8952 Schlieren, Zurich, Switzerland and run through June 26.

An additional show is planned in the U.S. opening October 2, 2009 at the Steve Carpenter Galley & Art Center at 176 Anderson Ave, Rochester, N.Y. 14607 where limited edition signed prints from the ***“New Works”*** Show will be available.
